

To learn

At the farm children can learn about farm life, get acquainted with the animals and know about agricultural activities.

They will know how to make biscuits and bread, how to sow or to pick up maize or they will simply play in the fields.

During their stay, they will also have the opportunity to taste our salame, our jam and our cakes.

The farm

Cascina Buona Speranza is an old farm of the 18th century; it is located among the fields at only 7 km from Bergamo.

To sleep

At the farm, you can enjoy a relaxing stay. It is ideal for children, they can learn about farm life and how to behave with our animals. The Farm is also a starting point for many tours to the surroundings (Bergamo, Lake Iseo, our beautiful mountains). The Farm offers three double rooms and two furnished flats.

To eat

According to the season, you can enjoy the typical dishes of our Region, (polenta, casoncelli, risotti, our meat and salame) with good red wine and you can taste our home-made bread, focacce and cakes.

You can rest in the courtyard, play table tennis, take a stroll around the Farm, or lie down under an old aged mulberry tree.
